

# HashRace Terms & Conditions

To reward miners for contributing to our Pool, we're launching a bonus hashrate promotion called the **HashRace**. The bonus that miners receive correlates with how much hashrate they direct to our pool during the HashRace.

## Overview

The HashRace lasts 180 days in total and is split into an accumulation period (October 21, 2019 - January 20, 2020) and a post-accumulation period (January 21, 2020 - April 19, 2020).

The accumulation period is an opportunity for miners to **maximise their potential hashrate bonus over 90 days period**. The more the hashrate a miner directs to our pool during this period, the bigger the bonus they will accrue.

The post-accumulation period is an opportunity for miners to **receive their accrued bonus for an additional 90 days period**. To do this, they must keep their hashrate contribution consistent during that time period.

## Accumulation period

### The HashRace Bonus

For every 500 TH/s a miner contributes to our pool, Bitcoin.com will reward them with a **HashRace Bonus of 7.5 TH/s**. Miners will receive the HashRace Bonus in increments over a 90 days accumulation period as follows:

Timeline	Bonus payout	Amount per 500 TH/s in
0 - 30 days	0%	0

30 - 60 days	33.3%	2.5 TH/s
60 - 90 days	66.6%	5 TH/s
90 - 180 days	100%	7.5 TH/s

## HashRace Leaderboard Bonus

Miners who contribute the most hashrate will also have the chance to earn an additional HashRace Leaderboard Bonus and appear on our public top 10 leaderboard. These miners will receive **a bonus of up to 10 TH/s** for every 500 TH/s they contribute to our pool. This will be received in increments over a 90 days accumulation period:

Timeline	Bonus payout	Amount per 500 TH/s in
0 - 30 days	0%	0
30 - 60 days	33.3%	3.3 TH/s
60 - 90 days	66.6%	6.6 TH/s
90 - 180 days	100%	10 TH/s

## Post-accumulation period

After the accumulation period, miners can continue to receive some or all of their HashRace Bonus or HashRace Leaderboard Bonus throughout a post-accumulation period of 90 days:

- Miners who continue to contribute 50% or more of their average hashrate from the accumulation period to the Bitcoin.com pool on a daily basis will receive 100% of their hashrate bonus.

- If a miner's average hashrate for a single day falls below 50% of their average hashrate established during the accumulation period, the miner will not receive their hashrate bonus for that day.
- If a miner's daily average hashrate falls below 50% of their average hashrate from the accumulation accumulation period for more than 48 consecutive hours, the miner's hashrate bonus will be permanently reduced by 10%.
- The miner's bonus with continue to be reduced by 10% every 48 hours until their hashrate increases to above 50% of their average hashrate from the accumulation period.

## Additional details

- By participating in the HashRace or accepting to receive the bonus offered, you agree to the terms and conditions herein and the [Bitcoin.com Terms of Use](#).
- Bitcoin.com reserves the right to void any bonuses obtained by breaking the bonus terms and conditions or any other fraudulent behavior.
- In case of any dispute, the decision taken by Bitcoin.com management is final.
- Bitcoin.com reserves the right to amend, add, or remove any of the bonus/promotional details and terms and conditions.
